

Overcoming Content Collaboration Obstacles

Content collaboration challenges create problems—lost documents, version control issues, subpar customer experiences, and data-security risks. There's a better way. With a "single source of truth" for content and audit control, M-Files enables efficient and secure content sharing. Give your business a competitive edge by efficiently and securely finding, sharing, and collaborating on content.

CHALLENGE 1

EFFICIENCY OF SHARING CONTENT Chaotic document tools

- Inefficient document sharing practices
- Disjointed tools make finding the right information difficult
- Lack of audit trail

DO YOU KNOW:

Who can see your internal and external data?

SOLUTION 1

SHARE EASILY: A single source of truth

- Easy-to-use, customized collaboration tools
- A single, secure portal for client collaboration
- Seamless sharing with both internal and external stakeholders

CHALLENGE 2

POOR DIGITAL CUSTOMER EXPERIENCE Outdated tech

- Unable to securely share information with the right people
- Difficult to differentiate brand with legacy technology limitations
- Negative impacts on performance and reputation

DO YOU KNOW:

Can you access document change history and audit trails?

SOLUTION 2

SHARE SEAMLESSLY: A real-time, digital collaborative workspace

- Streamlined remote client access
- Branded digital workspaces tailor-made for customers and clients
- Easy to manage and flexible access controls

CHALLENGE 3

SECURITY AND COMPLIANCE RISKS Data dangers

- Risk of non-compliance with regulations and requirements
- Potential of exposing sensitive content to the wrong people
- Shadow IT via unauthorized and uncontrolled applications

DO YOU KNOW:

Can your team members co-author documents?

SOLUTION 3

SHARE SECURELY: Proactive access and security

- Intuitive control of compliance measures
- "Need-to-know" document access
- Secure document-sharing portals

THE SMARTER WAY TO WORK

M-Files provides organizations with the ability to find, share and collaborate on content internally and externally with stakeholders both efficiently and securely.

The M-Files platform provides:
